

Architectural floor plan of a dormitory building. The plan shows a long rectangular building with two main wings. Each wing contains a series of dormitory rooms (宿舍) separated by corridors (走道). There are two stairwells (楼梯) in the center of each wing. The plan is dimensioned with grid lines 1-18 horizontally and A-D vertically. Key dimensions include a total width of 11640 and a total length of 61225. Specific room dimensions are provided for each section. The plan also shows various doors, windows, and structural elements like columns and walls.
